

Chrin Hauling, Inc. - COVID-19 UPDATE

To All Our Loyal Customers,

With the unprecedented and constantly evolving COVID-19 pandemic that we all find ourselves affected by, I would like to take a moment to communicate to you how we at Chrin Hauling are responding and preparing.

We are remaining open for business and are taking precautions to ensure that we will continue to be able to serve you as our customers with the same level of quality and service that our business has provided for the past 65 years. Our trucks are completing all routes.

Although we are open for business, we take the risks of Coronavirus seriously as well as the safety and well-being of our customers and employees. In response to those risks, we have put protocols in place to help protect against the spread of Coronavirus, such as:

- Directing all employees to practice excellent personal hygiene.
- Requiring all employees to stay home if they show any symptoms of being sick or have been exposed to Coronavirus.
- Equipping employees with gloves and disinfecting wipes/hand sanitizer etc.
- Practicing social distancing.
- Increased general cleaning frequency and disinfecting high traffic areas even more times throughout each day.
- Minimized frequent touchpoints to the bare necessities.
- Limiting unessential interactions

Everyone's health and safety is our #1 concern and we will continue to monitor the situation and respond appropriately to ensure we protect the health and well-being of our customers, employees and their families.

Chrin Hauling Team

Please note: Beginning the week of March 23, 2020, Chrin will be discontinuing the collection/handling of resident's bulky items. In addition, all trash and recycling must be placed inside the carts for automated collection only. We regret the inconvenience this may cause, but any extra trash or recycling that requires hand picking at this time, unfortunately, cannot be accepted.
